# ***"Cosmic Unity"***

**Indeed the Universe is a singular reality.  
God is one and Mankind is one.**

**Differences of race, religion, culture or individual  
strengths and weaknesses  
should all be appreciated.**

**Much as we view in awe the mix of  
color, hue, patterns or design of  
the master gardener  
so must we all learn to look upon the great  
diversity of our world as fruit born out of  
transcendent Oneness.**
